DATA ANALYTICS READINESS ASSESSMENT (DARA) PROGRAM

Gain an understanding of the Company:

- Walk through strategic priorities and internal analytics
- Review the current state of technology and analytical tools available & used
- Evaluate analytical skill sets for key personnel

Provide a few deliverables:

- Opportunities for immediate Data Analytics application – where can we drive profitability right now?
- Recommendations for structuring approach to enterprise-wide Analytics Initiative
- Feedback on internal business analytics
- Recommendations for options to train talent; driving analytical efficiency inside identified workflows
- Opportunities for organic cross pollination across business processes and departments

DARA IS WHAT WE TYPICALLY DO FIRST

DARA MATURITY MODEL

We review specific skillsets and data analytic disciplines, arriving at an overall assessment of data analytic competencies by evaluating:

- Organizational Strategy
- Current Reporting depth and breadth
- Analytical tool skill sets currently in use
- Technology & infrastructure
- Departmental Engagement Result:
- Cross functional summary opinion regarding your organization's Data Analytics readiness

Our DARA Scorecard

	Pre Adoption	Emerging	Developing	Progressing	Leading
Strategy		✓			
Firm Analytics		✓			
Talent			✓		
Technology		✓			
Infrastructure		✓			

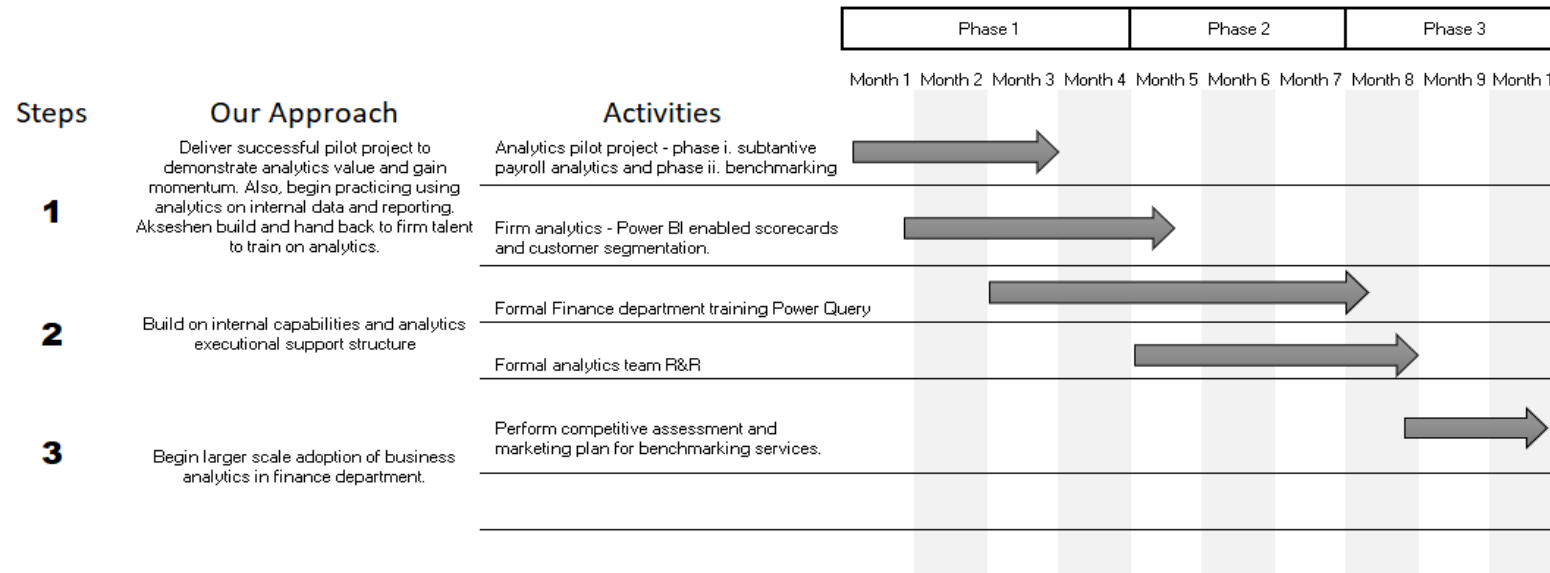

Pre-Adoption	Some data and management interest in analytics
Emerging	Functional management builds analytics momentum and executives' interest through applications of basic analytics.
Developing	Executives commit to analytics by aligning resources and setting a timetable to build a broad analytical capability
Progressing	Enterprise-wide analytics capability under development; top executives view analytic capability for client service as priority
Leading	The company routinely reaps the benefits of its enterprise-wide analytics capability and focuses on analytic services

DATA ANALYTICS ROADMAP

We also provide a suggested roadmap to establish a more formalized Data Analytics improvement journey. This enables organization leaders to assess their data analytic readiness position and helps to determine the path forward into expanding data analytics & reporting, with benchmarks and deliverables identified.

Data Analytics Roadmap - simplified

Recap of Detailed Interviews:

- Develop a standard automatic analytic around payroll expenses & deploy**
 - Build control template & Summary visualizations
 - Train staff & build tool understanding
 - Demonstrate efficiency via comparison to traditional review methods
 - Demonstrate analytic insights and benchmarking for payroll
- Deploy Power BI and Power Query based dashboards including**
 - Data connections and transformation consolidations
 - Train staff on these advanced tools
 - Distribution to leadership.
